

### Know Your Traffic Laws

Prepared in cooperation with the Traffic Education Bureau of the Torrance Police Department

Many intersections have pedestrian controls that guide pedestrians across signal controlled intersections with the maximum possible safety. These signs say WALK or DON'T WALK which makes understanding them rather simple. Yet, far too many pedestrians fail to observe these controls.

As a pedestrian you are required by the California Vehicle Code Sec. 21456.1 to obey

these controls as well as the many other rules that pertain to pedestrians.

RECENTLY there appeared in a local paper a letter written to the editor of that paper complaining about the Torrance police writing so many pedestrian citations and indicated that there were more important things the officers could be doing. Last year of the five fatalities this city suf-

fered three involved pedestrians.

Thus far this year three more pedestrians have been killed on our city's streets. Is this tragic condition to be taken lightly? Is this type of violation to be overlooked and be allowed to get worse? In addition to those killed, let's not overlook the more than 50 pedestrians injured last year.

AS A PEDESTRIAN there are certain obligations required of you just the same as the law requires certain things from our drivers. The Torrance Police Department is concerned with the safety of all whether they be pedestrian or driver. When our state's traf-

fic laws are violated, those persons who choose to violate these laws will be cited. Lt. Don Nash, head of the traffic division, Torrance Police Department, warns all pedestrians as well as those who drive that traffic law violations will not be tolerated. Those who choose to ignore our traffic laws will be cited and enforcement of pedestrian laws will receive special attention in view of the number of pedestrians killed this year and last.

WE MUST ALL do our part by obeying our traffic laws if we expect to keep this a safe community. Traffic safety should be the concern of all

because it affects everyone of us.

There is no immunity from traffic accidents. Stop and think: you might be our next fatality!
